* The agriculture figures in Form I, and the civil condition, infirmities and education figures in Form I-A, for the Pyapôn and Pyindayê Townships are approximate only. Fifty six villages belonging to the latter township were erroneously treated as belonging to the former when these forms were compiled. These villages have been put in their proper place in the village table, but full details for Forms I and I-A, not being available when the error was discovered a proportionate adjustment of figures has had to be made in respect of the date above named.
